

restrictions on using a multiyear contract for the specific system or component (10 U.S.C. 2306b(i)(2)). One such restriction may be the achievement of specified cost savings. If the agency finds, after negotiations with the contractor(s), that the specified savings cannot be achieved, the head of the agency shall assess the savings that, nevertheless, could be achieved by using a multiyear contract. If the savings are substantial, the head of the agency may request relief from the law's specific savings requirement. The request shall—

- (i) Quantify the savings that can be achieved;
 - (ii) Explain any other benefits to the Government of using the multiyear contract;
 - (iii) Include details regarding the negotiated contract terms and conditions; and
 - (iv) Be submitted to OUSD (AT&L) DPAP for transmission to Congress via the Secretary of Defense and the President.
- (g) The Secretary of Defense may instruct the head of the agency proposing a multiyear contract to include in that contract negotiated priced options for varying the quantities of end items to be procured over the life of the contract (10 U.S.C. 2306b(j)).
- (h) The head of an agency shall not award a multiyear contract using fiscal year 2005 appropriated funds unless—
- (1) The Secretary of Defense has submitted to Congress a budget request for full funding of units to be procured through the contract;
 - (2) Cancellation provisions in the contract do not include consideration of recurring manufacturing costs of the contractor associated with the production of unfunded units to be delivered under the contract; and
 - (3) The contract provides that payments to the contractor under the contract shall not be made in advance of incurred costs on funded units (Section 8008 of Pub. L. 108–287).
- (i) Do not award a multiyear contract using fiscal year 2005 appropriated funds that provides for a price adjustment based on a failure to award

a follow-on contract (Section 8008 of Public Law 108–287).
